

HELPING PHILADELPHIA EXPERIENCE HISTORY

DURING THE WORLD MEETING OF FAMILIES

COMCAST CENTER: More than 18,000 people viewed the Eternally Rome presentation and papal mass in the lobby of the Comcast Center, and plans were made to extend the show a full week after the visit through Oct. 4.

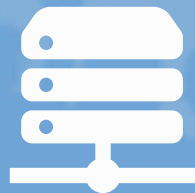

Whether it was constructing 3,120-feet of conduit, placing 6,000 feet of fiber optic and coaxial cable, volunteering for 12-hour shifts in the field, or deploying hundreds of Xfinity WiFi "hotzones" on 30 jumbotrons that ultimately allowed attendees to view the papal events and share images and videos with friends and family, the papal visit was about teamwork and sharing a once-in-a-life-time experience. **Here are some highlights:**

4.3M

**WIFI
SESSIONS**

Supported across the greater Philadelphia area using the Xfinity WiFi network.

114.9

**TERABYTES
OF DATA**

That's the equivalent of almost **38 million** high resolution (3 MB) photos of Pope Francis.

250K

**UNIQUE
USERS**

Accessed Xfinity WiFi across the region, with almost **360,000** unique devices.

-70%

**FEWER
CALLS**

Intense advance planning and preparations resulted in trouble calls that were well below an average weekend.
